**Getting Started** - Don't be surprised if your cars stop several times when you first use the track. Moisture in the air causes corrosion on the steel track rails and it takes a few laps of running to clean it off. So just give the car a push any time it stops and continue to drive. It will get better each lap and usually after 3 to 5 laps, the problem goes away completely. This can happen anytime the track is unused for many days.

## Round 2

Floor Space: 8' x 4'

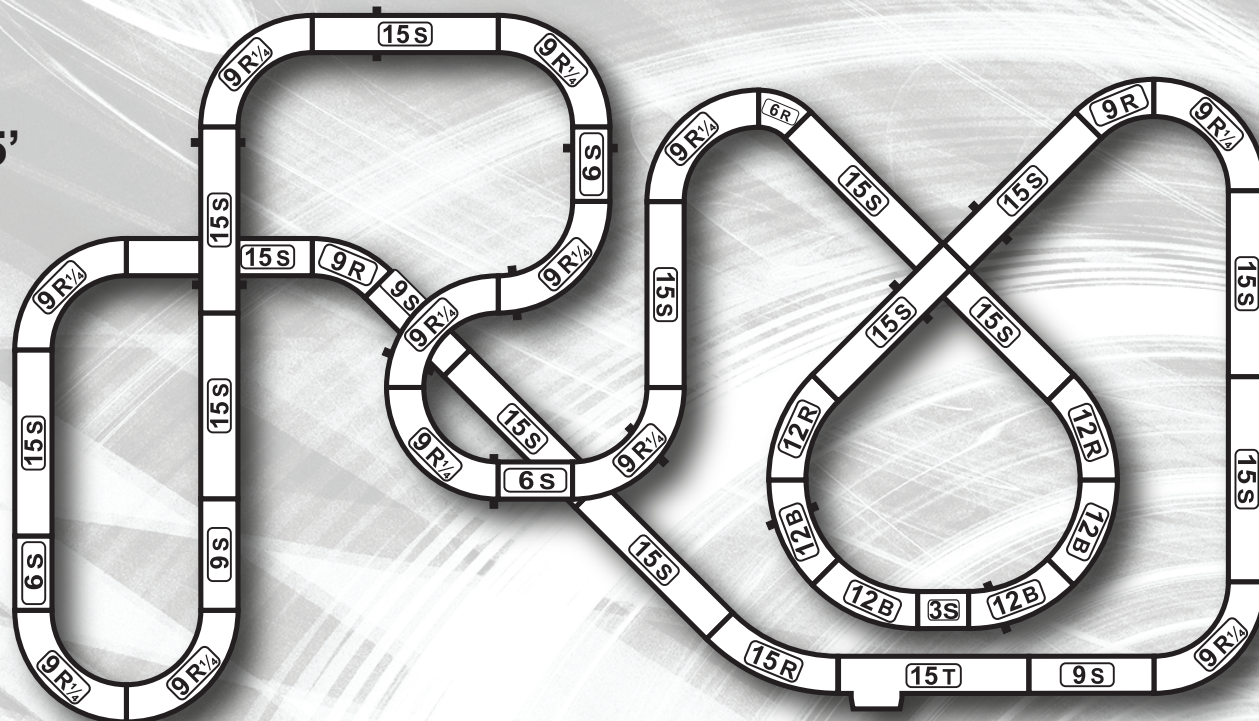

## Round 3

Floor Space: 9' x 3.5'

## Round 4

**Floor Space: 9' x 5'**

## Round 5

**Floor Space: 7.5' x 4'**
